Environment and Sustainability Policy

The Company (Urban Maintenance Systems Pty Ltd in Australia and UMS (NZ) Ltd in New Zealand Pty Ltd) is committed to continuous environmental improvement and implementing sustainable practices, whilst providing high quality and proactive services to our customers through the consideration of environmental, social and economical impacts associated with our daily operations.

The Company has established an Environmental Management System which is certified to ISO 14001:2015.

To continue to manage our environmental aspects, impacts and risks and achieve sustainable, long term business success, we have committed to:

- Effectively providing a safe and healthy workplace for our workers, contractors, customers, visitors and the general community.
- Complying with all applicable environmental legislation, regulations and other requirements.
- Working with all stakeholders to provide sustainable solutions and continually improving our services.
- Safeguarding the environment through the minimisation of pollution and the efficient use of all resources with a particular emphasis on energy and water and the minimisation of waste generated through recycling programs, efficient work and purchasing practices.
- Partnering with our clients for long-term mutual benefit.
- Encouraging innovation and best practice.
- Training our workers to adopt sustainable practices and to incorporate them into their daily activities.
- Being transparent in reporting practices to relevant stakeholders to promote and achieve positive outcomes.
- Monitoring emerging technologies for potential use in commercial operations.
- Ensuring sustainability is an integral part of the business plans and decision-making processes.
- Achieving our “Cut 5 Environmental/ Sustainability Program” – a minimum of 5% reduction in electricity consumption, CO2 emissions for vehicles and paper consumption from 2013 to 2020.
- Regular monitoring of the “Cut 5 Environmental/ Sustainability Program” to ensure continuous improvement.
